There is nothing compulsory in it except that it compels rebels to make their election whether they will cease their unnatural and horrid warfare against the Union, or cease to be the owners of slaves. The unpaid labor of the blacks has supported the war against us eighteen maths. It may do so three months longer, but that the proclamation will have no practical effect. That is not a good argument against it, for, if true, no harm can be done by it. Therefore let it be tried in good faith, and let all patriotic citizens cordially sustain the President will surply be completed with the same carefully sustain the President will surply be completed with the same as an action of the same and the call of the cal

The common sense of mankind sustains this opinion. The president has always claimed that he had such power. No loyal statement denics, it. Secessionists, as a master of course, object to its exercise: ient Lincoln has the undoubted right, a exercise war powers vested in

The opportunity for seeing the battle was unparalisated. A single-stand-point command-nearly the whole field from dawn to dark. But every hill and valley, every confield, grove, and cluster of freewas fiercely fought for.

The strillery was unceasing; we could often count more than sixty guns to the minute; and the nunkerry was like the patter of raicy drops in an April shower. On the great broken field were rid riess borsen and excitering men; clouds of dit from shot and exploiding shells, long dark lines of infantry swaying two and fro, with columns of anoka rising from their makets—with the sun shining brightly on all this seeme of tununit, and beyond it, upon the dark, rich would, and the clear blue mountains, flows the P-to-make.

Now we ask of those, who have heretofore chided us in no measured terms, that they to abad support the government. We intend to give it the same unconditional aid and encouragement lital it has always received at our hands, and we shall hope to make it the more effective, as we believe that liberty is the life giving spirit of the Union, and alavery its deadily poison. Is it unreasonable that we ask those who have differed from us, as patriots and lovers of their country, to give the government their support, now that emancipation is to be proclaimed as the last weapon wherewith to strike down the rebellion? We speak only to true men and patriots. To those who love slavery better than thar country and their country's flag, and who echo the airceious sentiment of the Chicago Times, that "the Government, by the act of the President, is itself in rebellion," we have only to say that the sconer will they take their true places and act out the real sentiment of their hearts. Bravery of an Indiana Color Bearer [From the Ind anapolis Journal, 19th.]
One of the most remarkable instances of bravery in this wal was exhibited by Eif All min, of Randolph county, in the 60th regiment Indiana volunteers, in the fight at Richment, Kentucky. After the first battle, hertreasted with the remaindeer of the army until the order to make another stand, wasn he planted the colors and called to the hops to vally. He then got upon the fence and waved the stars and stripes in the very face of the sneamy, crying, "Kally, boys, rally to the colors," and they did rally, and bravely did they defend them. The enemy full fast before their cadly fire: but the gallant band was outnumbered and overpowered. But again Alman raised the colors near the town, but few were there to rally to his call, many brave boys having fallen under the colors they swore to defend. One evidence of the way the 60th fought is, that out of the color company, Cspt. Bonebrake's, only ionsteen are safe of eighty-two who went fine the fight.

this city is raising a company of laties for the war. Several ladies have already joined the ranks, and a tightly drill is held. It is the purpose of this company, when thoroughly organized, to tender themse was to the Goyr as a corps of nurses for active service in inor as a corps of misse for active mentals, the hospital or on the battle-field wherever, in fact, they may be required. They purpose, in addition to giving their services, to be able to defend themselves and others in an omer to defend themselves and others in an emer gency, and to this end are rapidly perfecting themselves in the use of arms. Mrs. Captain W. is a crack-stot and thoroughly acquainted with the gun and revolver. Several others of the corps could wing a rebel at sight, Any information may be obtained of Mrs. M. A. MUSICAL.—The s'irring notes of war have and little or not ad affect upon the musical busi-cess. Our dealers are driving a handsom-tride, especially in sheet music, for which tie demand is immense. Patrio le songs go off like hot cakes, and the press can hardi; supply the call. It is a curious development of the times that Western music is finding a place in the Eastern market. Large orders fr m Boston and New York dealers have been ceived by Root & Cady for such songs as The Battle Cry of Freedom," "Kingdom loming," etc., which at once eatch the atfoming," etc., which at once caten the se-tention of the people and secure a strong hold apon the public favor. When the Eastern tendent of the Company has ordered three ex-tra cars to be run on Madison street every day, between the hours of 5 and 7 o'clock p.m. By this increase of cars, one will leave the

pathizers to attempt to throw dust in the loyal intelligent people.

CHICAGO MILL FURNISHING ca go have been very limited, as the heavy dealers and manifect uvers preser docking and piling it in the yards rather than sell at the reling prices. It is supposed that the prices of lumber will rule much higher this coming winted, from the fact that the stocks now on hand in the city are comparatively light, and the searcity of labor in the unbeiring districts caused by the numerous enlistments in the army, will prevent many mills from manufacturing their usual stock. The market is very firm.
